### Notes:

* None Reported (NR) because the compound exists at or below the limit of quantitation but above the limit of detection.
* None Detected (ND) because the compound exists at or below the limit of detection.
* Potency (SOP 020)
* Sample Condition deemed acceptable upon receipt by PhytaTech. Sampling done by outside party.
* Units of % are (mass/mass) and reflect numbers as a fraction of 100.

1 The sum of acidic and neutral values does not equal total potential content of a compound. To account for incomplete conversion of acidic to neutral compounds, the acidic value is reduced by a standard formula i.e., (THC-acid x 0.88) + delta9-THC = Total Potential THC
