

staff stash

Staff Stash showcases the skin care products or equipment the DERMASCOPE staff has been trying out for the month. Take a look to see which gems you may have been missing out on!

Amanda Strunk Miller
Publisher & Managing Editor

"I first discovered this dual product last summer. Everything from the whipped texture and lightweight coverage to the sun protection packed with antioxidants make TIZO3 Facial Primer Tinted and Sunscreen SPF 40 a dream to apply."
amanda@dermascope.com

Dorian Reyes
Assistant Editor

"A past ACA winner, Color Up's Elemental Zinc Moisturizer leaves my skin soft and soothed without a blemish in sight. On top of being one of my favorite moisturizers, it also protects my skin from environmental irritants."
dorian@dermascope.com

Elizabeth Brasher, L.E.
Lead In-House Aesthetician

"The DermAware Resurface Body Lotion helps to target any dry, bumpy skin texture that tends to flare up in the cooler seasons. The vanilla fragrance is nice and light, and I can really feel the glycolic acid working!"

Lauren Farmer, L.E.
In-House Aesthetician

"Marine Flower Peptide Lip Serum by Eminence Organic Skin Care is my absolute go-to lip product. When my lips get dry, this serum hydrates, plumps, and reduces wrinkles around the mouth. I even apply it under my lipstick for that extra shine. I highly recommend this product to all of my clients, family, and friends!"
